

Geißelspinnen in Europa und Nordafrika / Amblypygi in Europe and Northern Africa – Arachnida

Stand Oktober 2005 / As of October 2005

zusammengestellt von/summarised by [Theo BLICK \(theo.blick \(at\) t-online.de\)](mailto:theo.blick@t-online.de)

auf der Basis von/based on HARVEY (2003)

comp. Blick (2004): Arachnol. Mitt. 27/28: 100-105 – http://www.spinnen.callistus.de/Blick_br15_Harvey03.pdf

Geißelspinnen sind fast nur aus tropischen und subtropischen Regionen der Erde bekannt. Nur wenige Arten dringen bis in die temperierten Zonen vor – nur zwei in den Mittelmeerraum:

Whip spiders are almost exclusively known from tropical and subtropical regions of the world. A handful of species extend into more temperate climatic zones, only two into the Mediterranean:

Familie/family	Art/species	Bekannte Verbreitung	Known distribution
Charinidae	<i>Charinus ioanniticus</i> Kritscher, 1959	Griechenland (Rhodos/Kos), Türkei, Israel, Ägypten (EL HENNAWY 2002)	Greece (Rhodes/Kos), Turkey, Israel, Egypt (EL HENNAWY 2002)
Phrynichidae	<i>Musicodamon atlanteus</i> Fage, 1939	Marokko, Algerien	Morocco, Algeria

Sarax mediterraneus: siehe/see WEYGOLDT (2005)
